

Our champion  
magnolia  
is the **tallest** of its  
kind in the British  
Isles at **72 feet**

**Creativitree # 9**

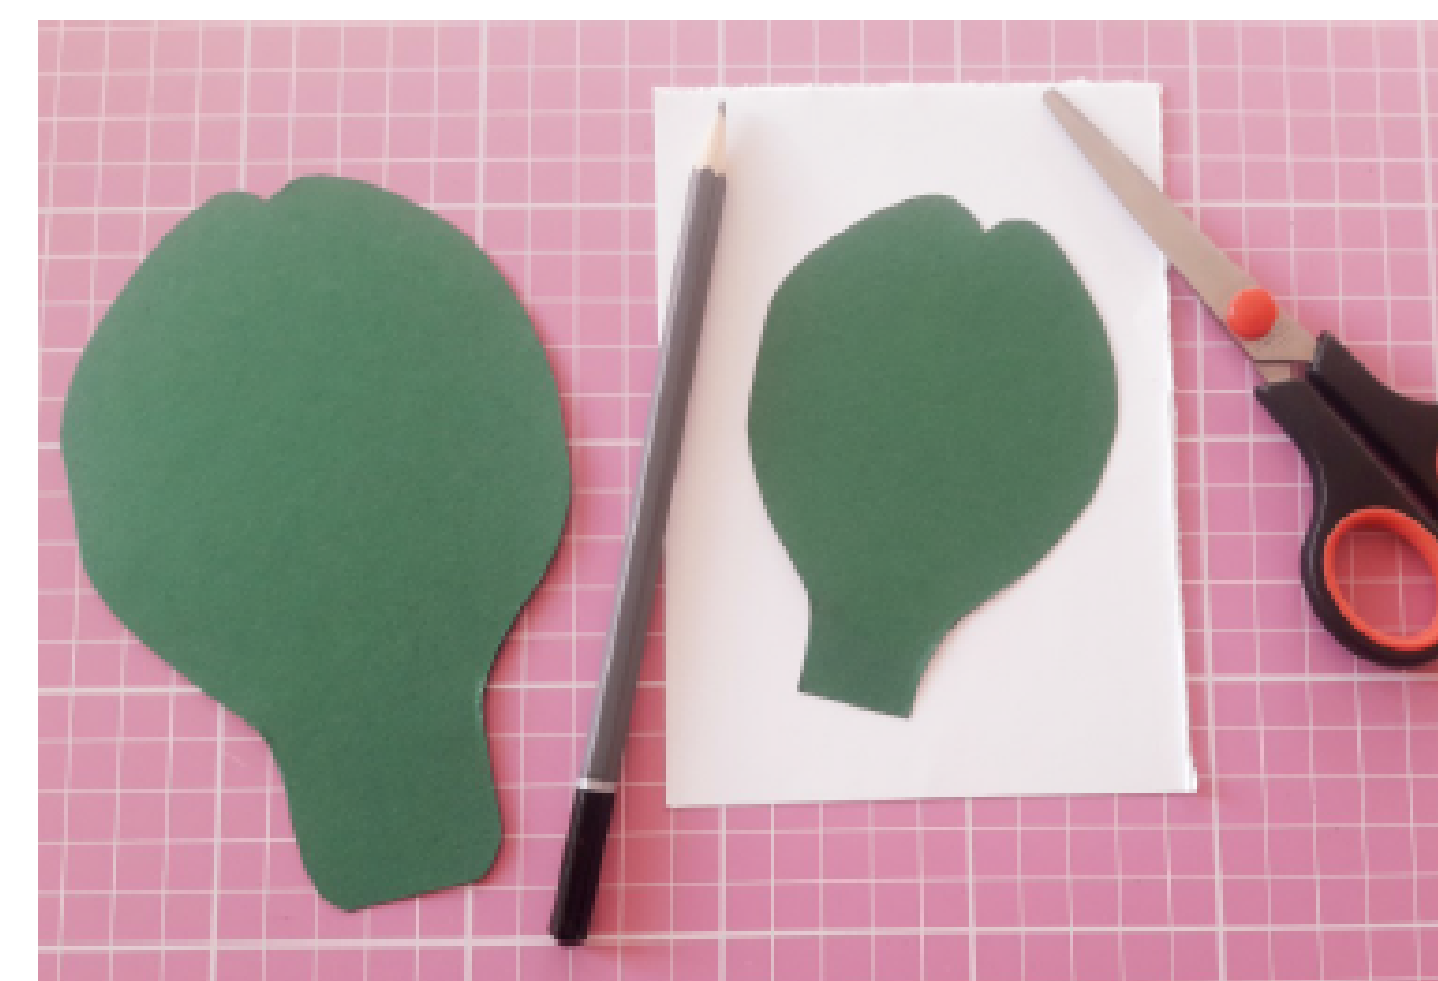

## Creativitree # 9

Follow the instructions to  
make your own magnolia  
flower.

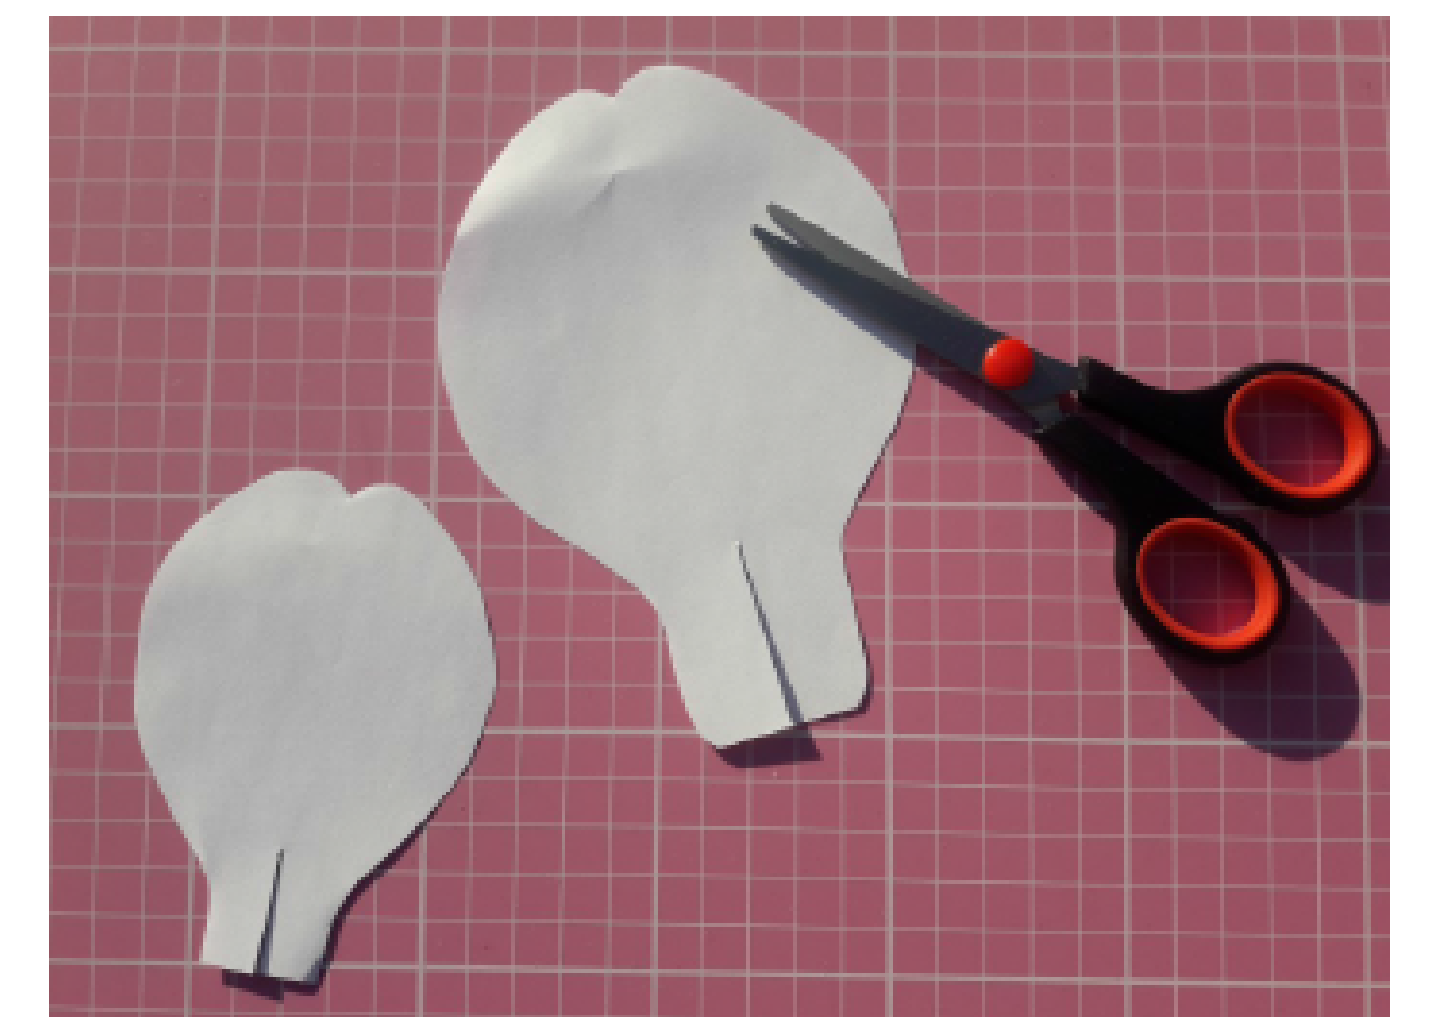

### Step 1.

On a folded piece of paper, draw half a petal shape (so the middle of the petal is along the folded edge) and cut out. Use A4 for the large petals and A5 for the small.

### Step 2.

Draw around the petal shapes onto card or paper to make templates, and cut out. Use the templates to make 6 large and 6 small paper petals.

### Step 3.

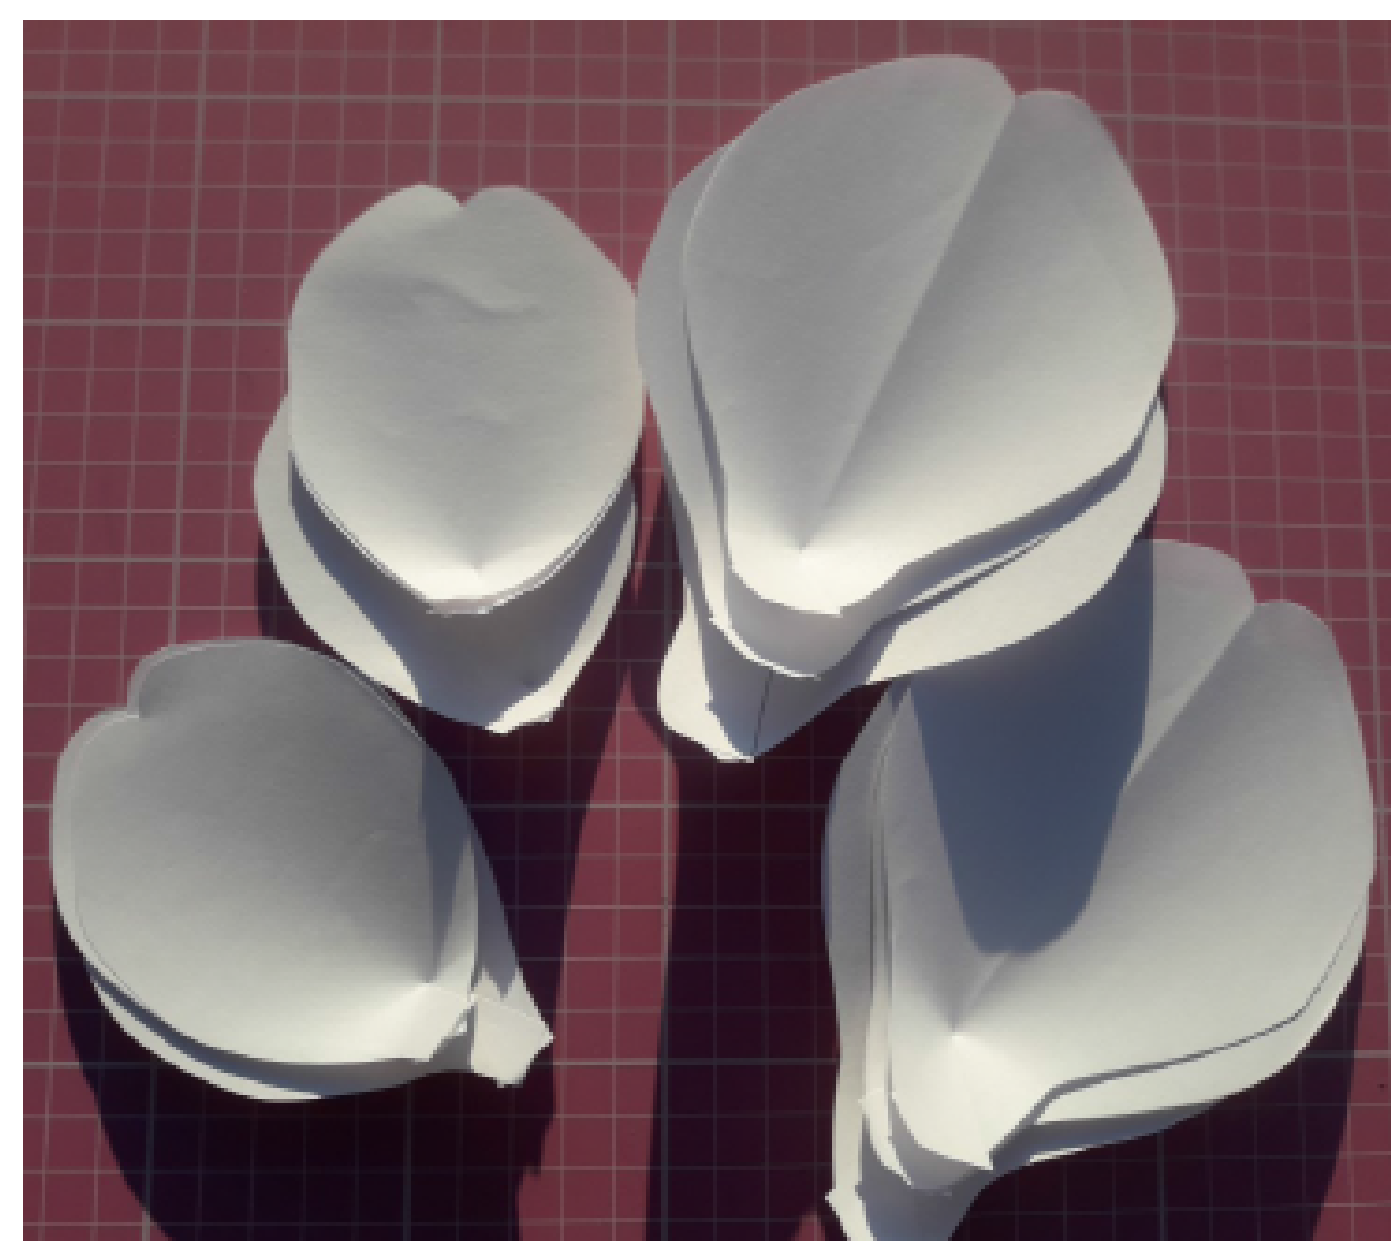

Make a small cut at the bottom of each petal.

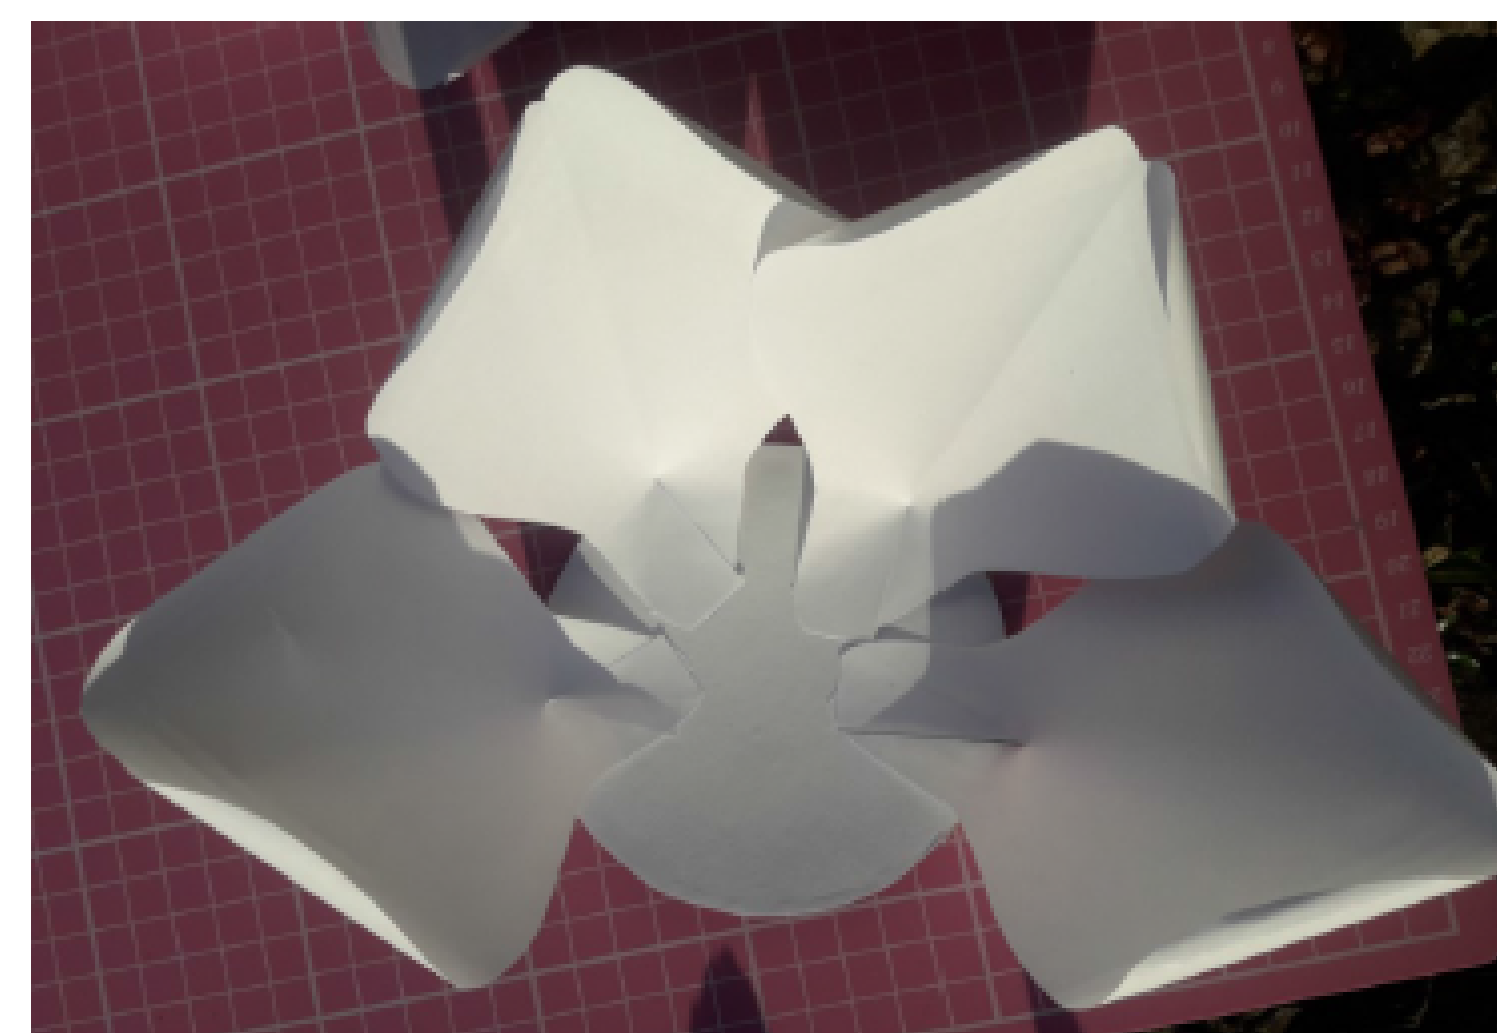

#### Step 4.

Over lap the two cut tabs and glue to create a shallow bowl shape effect.

#### Step 5.

Repeat on each petal until you have 12 petals - 6 large and 6 small.

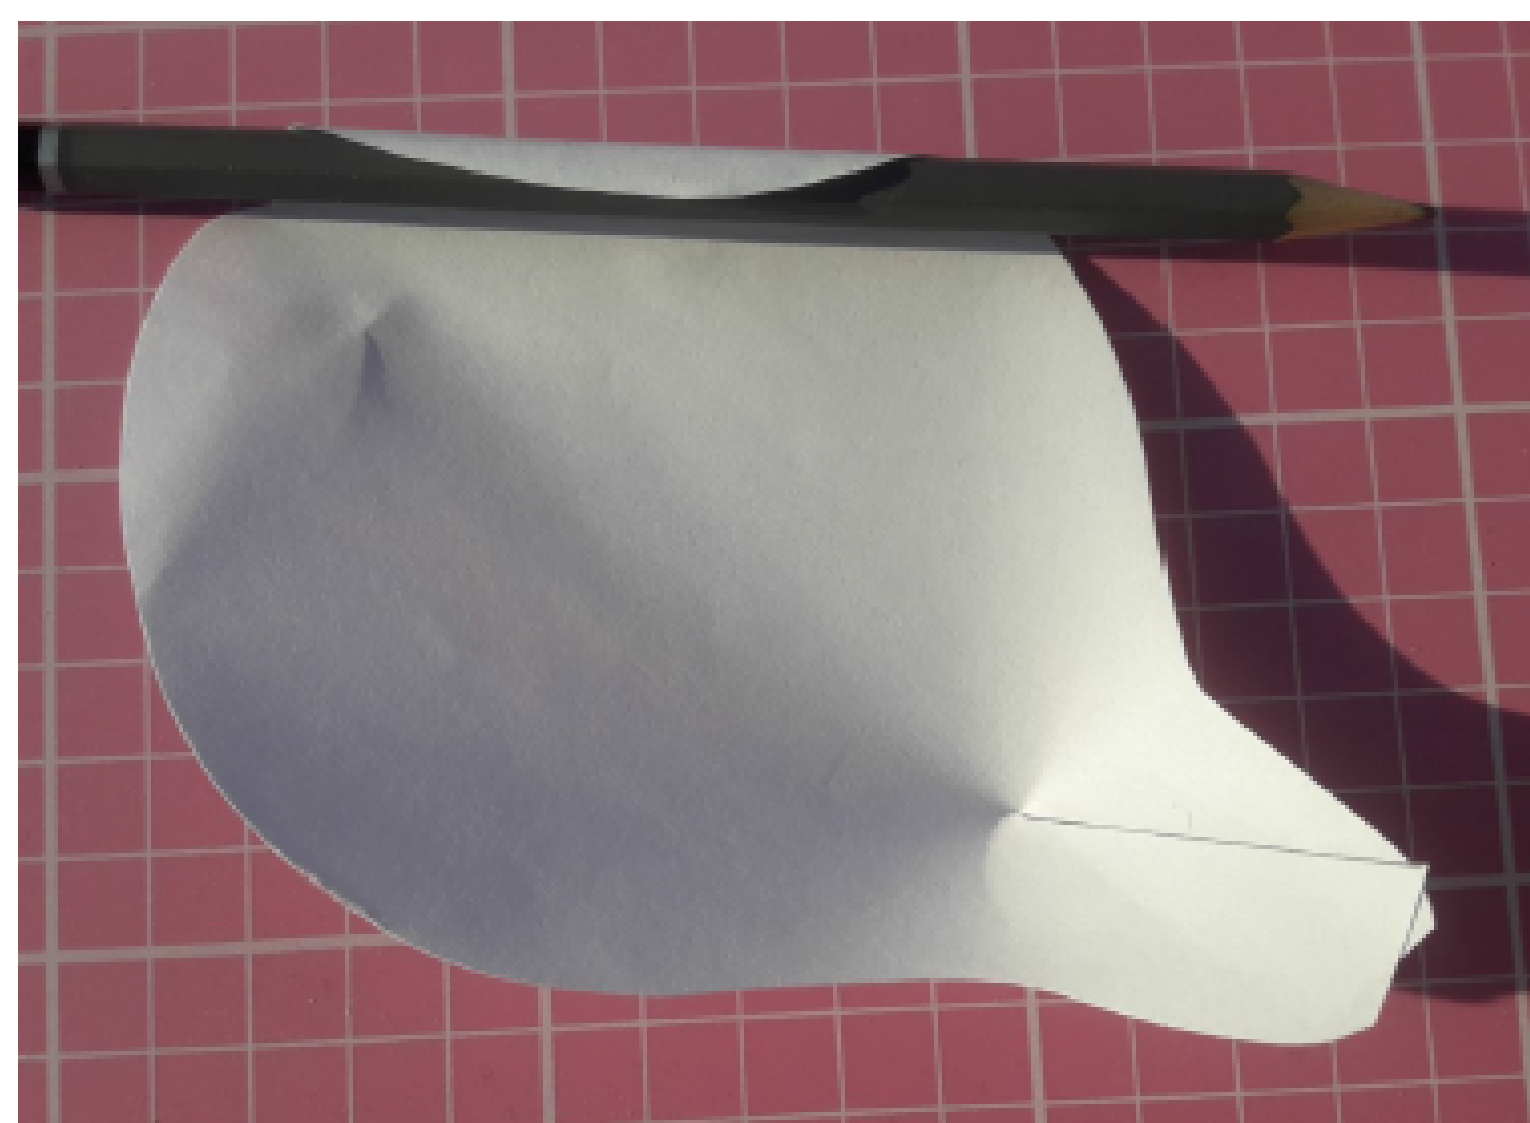

#### Step 8.

Glue the 6 large petals around the outside of the circle of card. Repeat with the small petals, placing them to hide the tabs of the large petals.

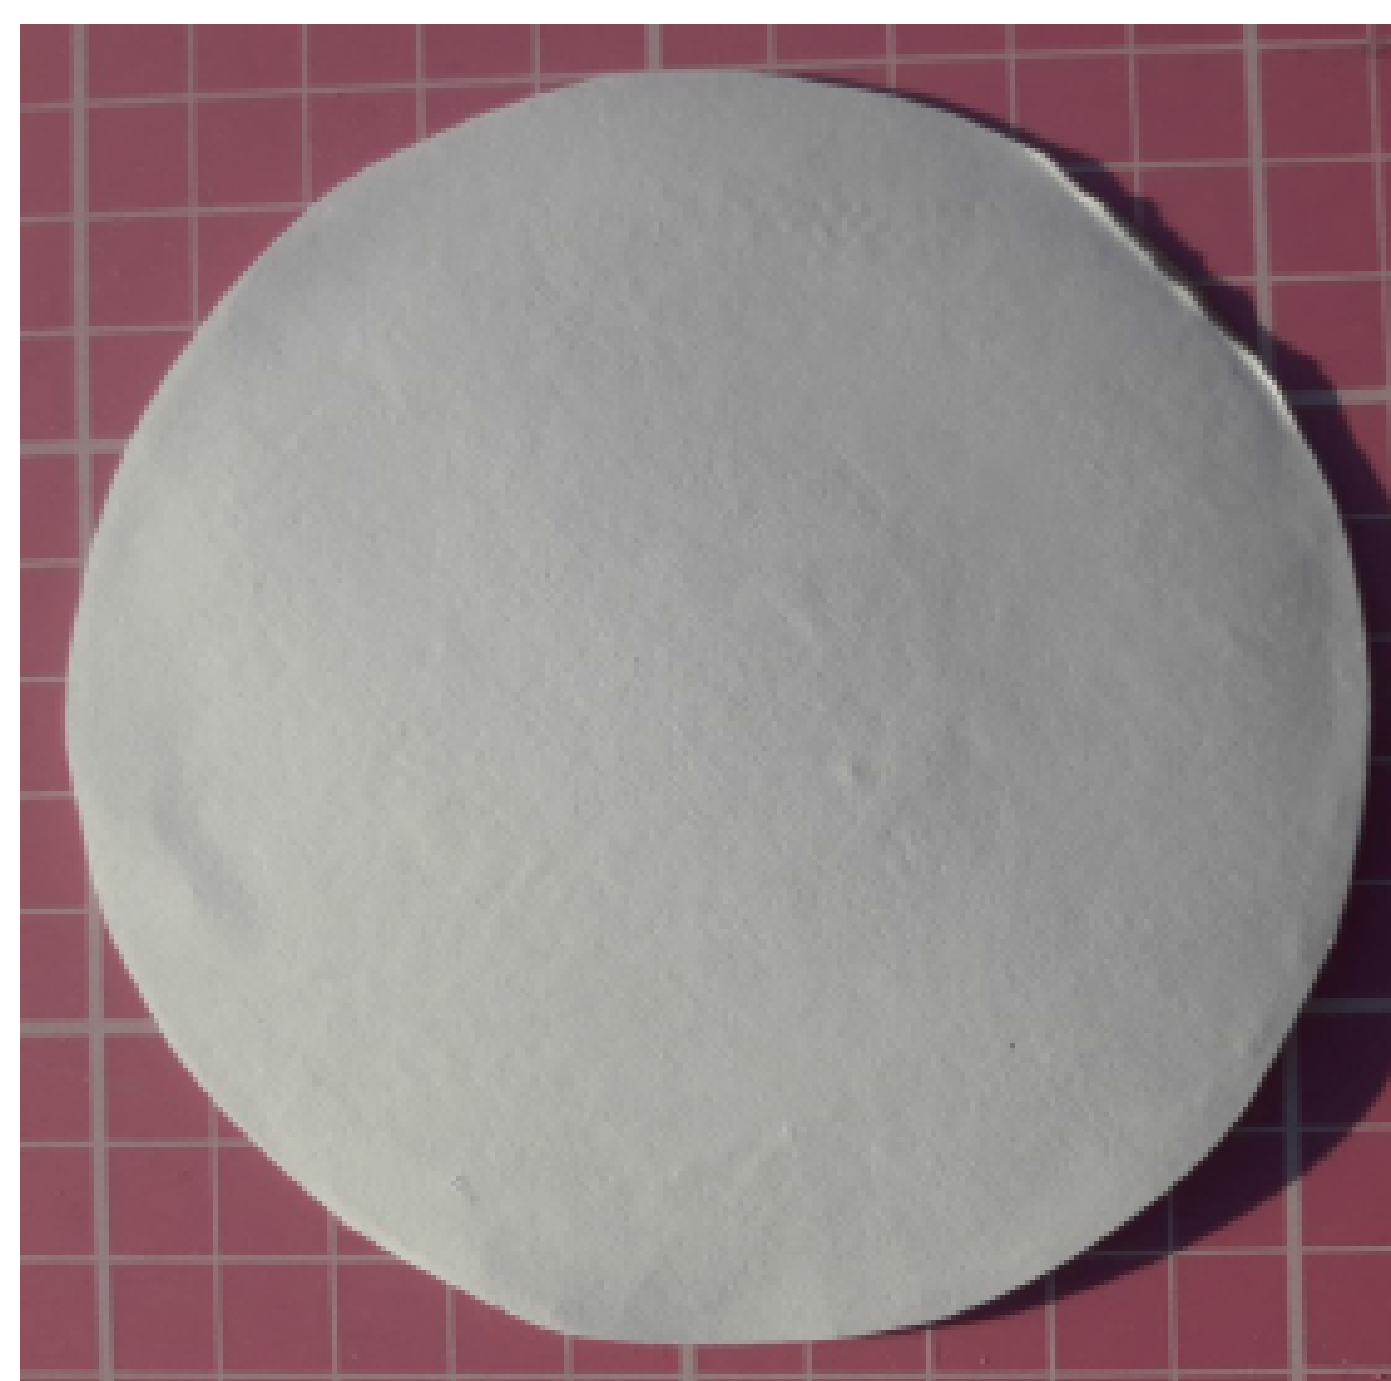

#### Step 9.

Cut a small circle out of bright coloured card, and glue into the centre of the flower.

#### Step 6.

Use a pencil to slightly curl the edge of each petal to give shape.

#### Step 7.

Cut out a circle of card. A saucer size is ideal.

#### Step 10.

Display your finished flowers.
