

Creativitree # 29

Use recycled materials to make something new like this egg carton tree. See what other beautiful art you can make out of something you would usually throw away.

You'll need: Empty, clean egg carton, A4 paper, green and brown paint/felt tip pens, scissors, glue gun/glue

Earth-friendly crafts are a responsible way to enjoy crafting while teaching about the benefits of **reducing, reusing, and recycling!**

Creativitree # 29

Step 1. cut out each section of the egg carton.

Step 2. paint or colour the pieces green.

Step 2. paint or colour a brown trunk onto a piece of paper.

Step 3. Glue the green pieces to the paper to look like a tree.
