Creativitree # 46

Use trees as your muse, and create your very own nature-inspired collaborative poem....

Collaborative Poetic Creations

- Together with people in your household, spend some time in your garden or natural space.
- Come back together, and take it in turns to describe your key moment, emotion, or sensory experience.
- Take elements from each person's description and write them down on a piece of paper.
- Together, decide on the order of lines of the poem.
- Read your very own collaborative poem!
