Background Information

Forestry England are the country's largest land manager, caring for the nation's forests for people, nature and the economy. The foundation of our organisation is our world-class sustainable management of the nation's forests.

Though Yorkshire is one of the smaller districts by area covered in Forestry England, we are advocates for much of the offer provided from outstanding customer service, forward thinking nature-led approaches and a can-do-it attitude across all departments. Yorkshire Forest District is located mainly in a hub office at Pickering, where our staff go as far north as Guisborough, as far west as Stainburn near Harrogate, south to Bishop Wood near Selby and back towards the east coast at Broxa and Wykeham. Our larger forests are placed along the southern edge of the North York Moors, making Pickering the perfect gateway to all our biggest areas of activity.
