

Ranger In A Bag

Each bag contains:

- Equipment, games and resources
- Activity instructions
- Health and Safety guidance
- Sample risk assessment

Woodland Art

Get creative and explore the forest through a variety of art activities. Search for colour, make clay sculptures, investigate natural materials and create your own forest gallery.

Sensory Explorers

A fun packed activity walk to stimulate children's senses. See, hear, touch, smell, discover and learn.

Minibeasts

A fascinating way to study the forest as a habitat. Use magnifying lenses and identification charts to get a close up look at small creatures.

Shelter Building

A great team activity. Children work together to construct sturdy shelters from forest materials. Test the structure using the 'rain test'.

Animal Detectives

Children will turn detective as they hunt for signs of animal life in the forest. Test their knowledge in our quiz made from clues found in our woods and spot the squirrel picnic tables.

Pond Dipping

Delve into the depths of our fantastic wildlife pond. Use nets and identification keys to find out about life in our ponds.
